

VACUUM - CUM - PRESSURE PUMPS :

These are combined Vacuum-cum-pressure pumps, designed and manufactured for long trouble free operating life. These are basically air-cooled, rotary pumps. Being compact, light weight and easily assembled, they require minimum attention even in continuous operation. Accessories like Vacuum and pressure regulators, Vacuum and Pressure Gauges, Relief Valves, Inlets Filters, Exhaust Oil Baffle etc. are available for different models.

APPLICATIONS :

- ◆ Vacuum Lifting & Vacuum Forming.
- ◆ Paper and label handling in printing and labeling machine.
- ◆ Evacuation of containers in food-packing.
- ◆ Air Stamping & Bottle Filling.
